

Kwikset

Welcome
to your
New Home

THE BEST SECURITY IS SMART SECURITY.

DEAR NEW HOMEOWNER:

Congratulations on your *New Home!*

You will be pleased to know that your new home has been equipped with Kwikset door hardware.

At Kwikset, we think people shouldn't have to settle when it comes to home security. For over 60 years, we've believed that innovation is our greatest asset. Technology can deliver both quality and convenience. And the strongest insights come from understanding the people who use our products and how they use them. Everything we've learned has led us to one simple premise – the best security is smart security.

An established leader in lock technology, Kwikset is widely recognized for providing families security and peace of mind with high quality door locks and door hardware. Kwikset offers a complete line of products including door knobs, door levers, deadbolts, handlesets, and electronic keyless entry locks for residential and light commercial applications.

OUR REPUTATION IS ON THE DOOR. YOUR DOOR.

A product bearing the ANSI/BMHA Certification mark provides the buyer with a certain level of quality assurance. Certification requires that the product be tested and audited, which leads to higher design specifications and manufacturing procedures, resulting in a higher-quality product. Even though certification is not required, as an established leader in the lock industry, Kwikset feels it is our responsibility to deliver the best security products. Therefore, all of our products meet ANSI Grade III level or above.

TAKING CARE OF YOUR DOOR HARDWARE

Our philosophy is that a finish can make all the difference. From Polished Brass to Venetian Bronze, the hardware finish chosen for your home makes a powerful statement.

Clean your hardware easily and quickly with a soft cloth and warm, soapy water to remove fingerprints and dust. All of your colors are highly durable and will provide years of beauty for your home.

ADDITIONAL KWIKSET TECHNOLOGY & PRODUCTS

SMARTKEY® RE-KEY TECHNOLOGY

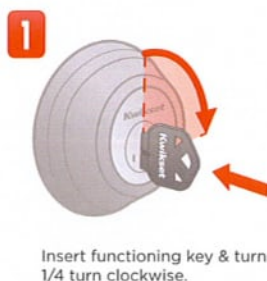

Re-key your locks, quickly & securely, without the extra hassle & cost of removing the lock from the door. SmartKey locks are incredibly secure & have passed the most stringent lock picking standards. Our patented BumpGuard™ technology provides superior lock bumping protection, while our high-security Grade 1 deadbolt is able to withstand the power typically associated with forced entries.

HOW SMARTKEY WORKS

Re-key as Easy as 1-2-3

! You must have your functioning key & the learn tool for the system to work.

- Re-key in seconds—save time & money
- Available in all Kwikset keyed-entry products
- Pick Resistant—passes the most stringent lock picking standard, UL437, par 11.6

- 980 Series Deadbolt Certified ANSI/BHMA Grade 1 Security—the highest level of residential security available in the industry
- BumpGuard™ for protection against lock bumping

KEYLESS ENTRY

Add a level of security and style to your home with the SmartCode™ Deadbolt and SmartCode™ touchpad electronic lever. With your own personal code, you can enter your home with just a few simple pushes of a button and lock it with just one. You also get more control over who has access to your home. Just assign a temporary code to whoever needs one and delete it when you see fit. Now you can totally eliminate the need for keys.

- Keyless entry— the ultimate in convenience & security
- Back-lit keypad for increased visibility
- Installs in minutes with just a screwdriver – no hard wiring required

- Includes SmartKey® re-key technology
- SmartCode™ Deadbolt is the only one touch locking motorized deadbolt

SMART TIPS FOR BETTER HOME SECURITY

DO YOU HAVE GLASS DOORS?

An intruder can access your home by breaking the glass and turning the thumb turn to open the door.

- Install double cylinder deadbolts that need to be opened with a key from the inside as well as the outside. Retrofit ground floor windows with locking hardware.

DO YOU HAVE DEADBOLTS ON ALL EXTERIOR DOORS?

Most burglaries are the result of forcible entry. Experienced burglars know that the garage door is usually the weakest point of entry followed by the back door.

- Install and use Grade 1 deadbolt locks on all exterior doors leading into the garage as well as entry doors leading into house.

IS YOUR BACKYARD EASILY ACCESSIBLE?

An unguarded backyard can be seen as an opportunity for thieves to get close to your house. Tall plants and bushes can provide burglars a cover while they attempt to break in.

- Install outdoor lighting and a secure fence. Keep plants and bushes near your home low and plant prickly bushes.

DO YOU SECURE YOUR HOME BEFORE GOING OUT OF TOWN?

Burglars target unoccupied homes with the easiest access, the greatest amount of cover, and with the best escape routes.

SMART TIPS FOR BETTER HOME SECURITY

(CONTINUED)

- Ask a trusted friend or neighbor to help you pick up mail and to check in on your home to give the appearance of occupancy.
- With a Kwikset SmartKey, you can re-key your lock to a temporary key for your neighbor. Re-key back to your permanent key upon return.
- Or install a Kwikset SmartCode and provide a temporary code for your neighbor to use.

ARE YOU A NEW HOMEOWNER?

During the sales process realtors, inspectors, potential buyers and workmen are in and out of the house. Many times these individuals are allowed use of the door keys unsupervised.

- Replace or re-key your locks immediately after you move in to ensure that only you control the keys to your new home.

WHO HAS A COPY OF YOUR KEYS?

Have you ever handed your keys to a valet? Or give a repairman a spare key? There is a possibility that your keys have been copied or you have extra keys that are unaccounted for.

- Re-key your locks any time you feel you might have misplaced a key or allowed a stranger to borrow your key. Kwikset SmartKey makes rekeying fast and convenient, without having to replace the entire lock.

HAVE YOU BEEN LIVING IN YOUR HOME AWHILE?

Locks are subject to wear and tear. Worn or rusted locks are a serious weakness in home security. Old, worn out locks are easier to pick and break, and they are more difficult to open legitimately with a key as time goes on.

- Closely inspect deadbolts every six months for signs of tampering and excess wear. If your lock has severe tarnish, rust, or other visible signs of wear, it may be time to look for a replacement lock. If your lock is becoming increasingly difficult to open with the key, especially on cold nights, you need to replace or service the lock immediately to avoid an inconvenient malfunction that may leave you locked out.

DO YOU OFTEN COME HOME LATE?

Late night can be a dangerous time since most of the neighbors are sleeping and lights are off.

- Have your keys ready so you won't fumble for them once you are at the door. Leave a porch light on and have a flash light ready.

DO YOU USUALLY HIDE KEYS?

Never hide keys under a mat or taped above a door jamb: Burglars know these places.

- Don't hide keys. Leave a key with a trusted family member, friend or neighbor.
- If you frequently lose or misplace your keys, you might benefit from a combination door lock such as the SmartCode. Combination door locks can be opened by inputting a code into the lock.

Kwikset

PRODUCT WARRANTY INFORMATION

*Kwikset products are backed by one of the most comprehensive warranty programs available.
You can feel confident that with the purchase of Kwikset, you have selected the best quality product,
backed by the best customer service available.*

Lifetime Mechanical Warranty & Lifetime Finish Warranty

Kwikset product comes with a lifetime mechanical and lifetime finish warranty that covers the original residential user against defects in material and workmanship, as long as the original user occupies the premises upon which the product was originally installed. This warranty **DOES NOT COVER** scratches; abrasions; deterioration due to the use of paints, solvents, or other chemicals; abuse; misuse; or product(s) used in commercial applications. Upon return of a defective product to Kwikset Corporation, Kwikset may repair or replace the product or refund the purchase price. **Kwikset is not liable for incidental or consequential damages.** Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state. If a mechanical or finish defect occurs, please call 1-800-327-LOCK (5625) in the U.S. and Canada or return it to Kwikset Corporation, Consumer Services, 19701 DaVinci, Lake Forest, California 92610. For customers outside of the U.S. and Canada, claims under this warranty must be made to either the place of purchase or to the listed importer.
